

MVM-5E Machine Tape for Finishing, Printing and Paper Applications

Versatile machine tape with adhesive-free joining system particularly suitable for finishing and other printing and paper applications.

MVM-5E is a new member of Habasit's wellknown and highly rated Hamid machine tape range. It perfectly combines a thin belt with high belt strength.

Tests at leading companies have proved

- Outstanding dimensional stability
- High performance
- Precise and smooth handling of transported goods
- Long belt service life

Performance summary

Developed for excellence

Habasit has developed the new **MVM-5E** based on years of experience, ongoing research, close contacts with the printing industry, and long-term partnerships with leading machine manufacturers.

Key features	Your benefits
• Excellent dimensional stability thanks to traction layer made of PET fabric and thermoplastic TPU foil • Not sensitive to changing ambient humidity	→ No re-tensioning required, no machine downtimes → Less maintenance cost → Precise machine performance → High machine output
• High longitudinal flexibility • Good flex-fatigue properties	→ Long belt life
• Good belt tracking	→ No re-adjustments required
• Durable, abrasion resistant and proven NBR cover on conveying side	→ No marking of transported goods → Reliable and consistent grip → Precise and smooth handling of transported goods → Long belt life
• Excellent abrasion resistance of impregnated surface fabric on pulley side	→ Particularly suitable for applications on slider beds
• Easy on site joining without adhesives • Durable joint with excellent flex fatigue properties	→ Open belts easy to join on the machine → No timeconsuming disassembly of machine required → Reduced machine downtimes and low cost → Long belt life

Technical key data

Type	Thickness		Tensile force for 1% elongation (relaxed)		Color of paper conveying side
	mm	inch	N/mm	lbs/in	
MVM-5E	1.1	0.04	4.0	23	green

Product liability, application considerations

If the proper selection and application of Habasit products are not recommended by an authorized Habasit sales specialist, the selection and application of Habasit products, including the related area of product safety, are the responsibility of the customer. All indications / information are recommendations and believed to be reliable, but no representations, guarantees, or warranties of any kind are made as to their accuracy or suitability for particular applications. The data provided herein are based on laboratory work with small-scale test equipment, running at standard conditions, and do not necessarily match product performance in industrial use. New knowledge and experiences can lead to modifications and changes within a short time without prior notice.

BECAUSE CONDITIONS OF USE ARE OUTSIDE OF HABASIT'S AND ITS AFFILIATED COMPANIES' CONTROL, WE CANNOT ASSUME ANY LIABILITY CONCERNING THE SUITABILITY AND PROCESS ABILITY OF THE PRODUCTS MENTIONED HEREIN. THIS ALSO APPLIES TO PROCESS RESULTS / OUTPUT / MANUFACTURING GOODS AS WELL AS TO POSSIBLE DEFECTS, DAMAGES, CONSEQUENTIAL DAMAGES, AND FURTHER-REACHING CONSEQUENCES.
